PROFESSIONAL SUMMARY

DevOps Engineer specializing in AWS cloud infrastructure and automated CI/CD pipelines. Expert in containerization (Docker), web server configuration (Nginx), and bash scripting for system automation. Focused on improving deployment frequency and system reliability through modern DevOps practices.

TECHNICAL SKILLS

- **Cloud Infrastructure:** AWS (EC2, Lambda, S3, API Gateway, Amplify, CloudFormation)
- **CI/CD & Automation:** Jenkins, Docker, Docker Compose, Bash Scripting, Cron.
- **Web Servers & Networking:** Nginx (Reverse Proxy), REST APIs.
- **Operating Systems:** Linux (Ubuntu/Debian), Git/GitHub.

PROFESSIONAL EXPERIENCE

FULL STACK DEVELOPER – *Department of Social Welfare & Development*

Jan 2024 – Present

- **Architected and provisioned** standardized AWS infrastructure using CloudFormation (IaC), ensuring 100% consistency across development, staging, and production environments.
- **Mitigated Single Points of Failure (SPOF)** by assisting in the decoupling of a monolithic cloud application into a modular architecture, significantly improving system resilience and uptime.
- **Optimized cloud budget** by conducting comprehensive AWS expenditure audits, identifying cost-saving opportunities and right-sizing underutilized resources.
- **Streamlined deployment workflows** by building automated CI/CD pipelines using Jenkins and Docker, reducing manual intervention and deployment errors.
- **Improved application performance** by implementing serverless REST APIs (AWS Lambda & DynamoDB), reducing HR evaluation turnaround time from 10 days to 2 days.
- **Developed automation scripts** for database backups and S3 uploads using Bash and Cron, ensuring 100% data retention compliance and disaster recovery readiness.
- **Managed environment-based deployments** using Nginx reverse proxies, AWS Amplify, and YAML configurations to synchronize frontend/backend delivery.

FULL STACK DEVELOPER – *BoomUpp Corporation*

April 2023 – June 2023

- **Developed REST APIs** for media uploads and customer feedback systems, improving data retrieval efficiency for the platform.

COLLEGE INSTRUCTOR – *Forbes College*

April 2022 – May 2023

- **Instructed web development courses** covering PHP, MySQL, and JavaScript, mentoring over 100 students in full-stack fundamentals.

EDUCATION

Bachelor of Science in Information Technology | Forbes College
Awards: Champion, Junior Programming Competition (ICPC)
